

Compatible Charging Station List

June 2024

Compatible Charging Station List

ABB

Terra DC, 22.5 kW 1 ph
(Input voltage: 208 V/240 V.)
Terra DC, 24 kW 3 ph
(Input voltage: 480 V.)

Terra 54,
50 kW DC

Terra 94, 90 kW DC
Terra 124, 120 kW DC
Terra 184, 180 kW DC

Terra HP,
175/350 kW

Autel

MaxiCharger DC
Compact Autel,
40 kW DC – Double CCS-1

ChargePoint

Express 250,
62.5 kW DC

Kempower

Mobile charger
Dual-port design
1 x 50 kW or 2 x 25 kW

Power Unit C800
50 kW to 600 kW

Rhombus

Rhombus,
60 kW DC – V2G

List of Compatible Charging Networks

Our ambulances are compatible with the listed 800 V charging stations. Find some of them among the EV charging networks.

- Electrify Canada
- Electrify America
- ChargePoint
- FLO | AddÉnergie
- Circuit électrique
- Énergie NB Power

Note: • Lion is continuing its compatibility efforts with other models and suppliers. Please contact your sales representative for further information.
• Please note that the Lion5 Ambulance has a type CCS-1 charging port.
