

DEMERS TYPE II Ambulance

In saving lives, there is no such thing as compromise. There is no “good enough.” You go all out. And so do we. Our ambulances meet or exceed North American standards for quality and safety, and come loaded with unique and innovative features. Demers is your trusted partner on the road – tested, hardworking, and ready to respond.

Type II ambulances provide many benefits with their smaller footprint, including better fuel economy and ease of handling. Demers Type II Ambulances go beyond the standard with ergonomic designs that provide an elevated experience for crew and patients with a comfortable interior and ample storage space for medical equipment.

Built for the long haul, our vehicles are a top value for your investment, a leader in the industry for total cost of ownership and best resale value. Demers is your trusted partner on the road – safety, innovation, and quality – all with the goal of getting you home safely.

- Maximized cargo capacity
- EcoBoost® V6 engine delivers a good combination of fuel-economy and power

THE DEMERS DIFFERENCE

Never compromise. It's our commitment to uphold unmatched industry standards for quality and safety. Innovative designs, strong modules, and rigorous testing. Our ambulances are expertly crafted and designed for efficiency, aiming to provide the lowest total cost of ownership in the industry. So much rides on our reputation. But what matters most, and always has since 1960, is the safety of those who ride within.
